
CANCER TREATMENT CENTERS OF AMERICA

Cancer Treatment Centers of America (CTCA) is committed to changing the face of cancer care. We are proud supporters of Stand Up To Cancer’s aggressive pursuit to transform the way cancer research is organized and funded, supporting innovative treatment options, to help people take control of cancer and take back control of their lives.

For more than 30 years, CTCA has provided cancer patients with state-of-the-art therapies available to fight cancer combined with scientifically supported complementary therapies to boost their immune system, reduce side effects and improve their quality of life. We believe there isn’t one way to beat cancer – there are hundreds and that is why we stand side-by-side with Stand Up To Cancer. Every day, doctors across the country at CTCA work to integrate care plans with the right combination of personalized treatments for cancer patients empowering them to make the best choices for their healing.

Every person has the right to choose when faced with a cancer diagnosis, but unfortunately, many do not have this option. This compels us to provide comprehensive cancer care under one roof, by a knowledgeable and compassionate team of doctors, nurses, naturopaths and more. Our cancer experts work together in one of the most integrated cancer care environments imaginable. We provide patients with all the information they need to be in control of their cancer treatment decisions.

We call this the Mother Standard of care – caring for each person as if they were our own mother, father or any family member. It keeps us focused on what’s most important - You. Your healing. And your quality of life.

Stand Up To Cancer embodies the same values that drive us each and every day to beat cancer.
