
GATEWAY FOR CANCER RESEARCH

The Gateway for Cancer Research is a nonprofit organization that funds innovative research focused on saving lives now. We believe the only results that matter are those that can quickly restore quality of life, give a patient more time or cure a patient today. We are working to change the face of cancer research by injecting urgency and accountability into the equation.

The Gateway supports *treatment innovators*SM who are dedicated to delivering new treatment options for today's cancer patients. We hold ourselves and our *treatment innovators*SM accountable for continuous improvement and results. We look to support bold, new ideas that might not otherwise receive funding and are proud to partner with Stand Up To Cancer in the shared mission of advancing research that delivers new treatment options in the fight against cancer.

The Gateway is unique among cancer charities in that 99 cents of every dollar received goes directly to cancer research, thanks to generous underwriting by Cancer Treatment Centers of America. For more information on our research and how you can get involved and make a difference, visit us at www.gatewayforcancerresearch.org
